Virtuemart Quotation Component

VMQuote , the online Quotation / Invoice system assists the virtuemart shop in preparation, issue, and tracking of customer quotations.

VMQuote Â allows users to quickly and accurately prepare a customer quotation by accessing the products in virtuemart store. with the powerful component, you can create any quotations for any customers, even for unregister customers, it will create a new account for them when you finish creating the quotation, and email the customers the account and quotation with pdf format document. After the new customer login in your website and Â accept the quotation, it will create a new order automatically and wait for customer finishing the payment.

It also provide the invoice function, you can generate Â the invoice of pdf format at the backend, ifÂ  you want to track the quotations and analysis the statistic, you can export all kind of tables about quotation,invoices,unpaid order.

It is a Stardand joomla component for virtuemart, so donâ€™t worry about the edition of your virtuemart, the installation is absolutely simple, the usage is absolutely easy.

Attention:this version of vmquote just support virtuemart1.0, if you want to use vmquote in virtuemart2.0, Please check another version here:vmquote2.1
